Community Based Support Service

# Floating Support

TDAS offers a Floating Support Service to women and men who live in the Trafford area who have been affected by domestic abuse.

We support women and men to live independently and free from abuse whilst staying in their own home or maintaining/obtaining a tenancy in their own right. Support is organised through individual support plans, all devised with your full involvement to keep our service needs-led and person centred.

*“Without the Floating Support Service I would have had to move address as my ex knew where I lived, the children’s schooling would have been disrupted and my debts would have continued to escalate as I was unable to get affordable housing.”*

We aim to provide a comprehensive and holistic Floating Support Service which includes:

- Regular face-to-face work and telephone contact
- Advocating with housing, health and social services
- Help with filling out any necessary forms
- Help to access benefits and grants, e.g. Community Care Grants
- Accompaniment at meetings and court attendances
- Support and help to enable you to continue living in your own home

*“The support from TDAS has given me confidence to solve some of my problems myself.”*
