

Safe in Salford

The Safe in Salford Partnership aims to transform domestic abuse services to improve outcomes for those impacted and affected.

Safe in Salford is your one front door for domestic abuse support

Advice & Support

- Surgeries and advice sessions on health, housing, welfare, debt and legal issues
- Trauma responsive group work and 1:1 sessions for up to 12 months
- Help with safety planning and referrals for specialist support
- Peer support from trained volunteers with lived experience

Specialist Support for GP's

IRIS is an evidence-based primary care training, support and referral service which aims to improve identification of patients experiencing domestic abuse and help them access support. We can provide full training to GP surgery staff, helping them spot the signs of domestic abuse and offer simple referral pathways, so patients can get help quickly.

Collectively, our four charity partners have over 140 years' experience of delivering services to people in Salford and the surrounding boroughs. At the heart of our partnership lies a commitment to listening and responding to the experiences of victims and to working collaboratively to create sustainable change with individuals, families and communities.

Supporting Victims

Crisis Service for Victims

- Specialist support from Independent Domestic Violence Advocates (IDVAs)
- Guiding people from crisis to safety
- Collaborative working to prioritise the safety of victims and their children

Children & Young Peoples' Support

The Harbour Project works with young people aged 5-18 who have witnessed or are experiencing domestic abuse. We can support them if they are showing signs of unhealthy behaviours in their own relationships, by offering a safe space to explore this without judgement.

To keep our phonenumber free for urgent support, email us where possible

Delivered at a separate location to victim services

Behaviour Change for Perpetrators

To stop abuse at the source, we work with perpetrators on a range of behaviour change programmes. We encourage them to take responsibility for their abusive behaviour and change their approach to relationships with partners, ex-partners and any children in their life.

Can we help?
