Constitution

In 1987, a group of local women identified the need for safe accommodation for women and children who had to flee their homes due to suffering domestic abuse. They campaigned across the borough, engaging local communities, agencies and the general public to show the need for a refuge in Trafford.

Trafford Women's Aid opened as a refuge in June 1990-after 3 years of fund-raising and employed just one full time worker with the rest of the support being provided by management volunteers.

The refuge originally received no funding from the Local Authority was funded by the women's rents which included a support charge and Housing Association grant.

Over the years TWA developed substantially and the staff grew with it. It began to provide community services and working with children in the refuge.

In 2012 TWA changed its name to Trafford Domestic Abuse Services (TDAS) in order to ensure male victims did not feel excluded from accessing our services.

Over the past 4 years, TDAS has focused on providing a wrap around service for women, men and children who are victims of domestic abuse. Our accommodation service has doubled in size with us now able to offer lower level move on accommodation, our Outreach services are locally placed and reaching harder to reach communities and we have successfully piloted and delivered our Prevention work with young people and Training for Professionals.

Domestic abuse is a gendered crime which is deeply rooted in the Societal inequality between women and men. It takes place 'because she is a woman and happens disproportionately to women' (United Nations (UN) Declaration on the elimination of violence against women 1993).

Trafford Domestic Abuse Services (TDAS) is an independent voluntary organisation that has been operating since June 1990, is a Company Limited by guarantee and a registered charity. TDAS is the only specialist agency in Trafford who deliver services to women, men, children and young people who are experiencing or have experienced domestic abuse. We are funded for our services through various funding streams, and are in the process of looking for further areas of funding to enable us to extend the services we provide in the borough of Trafford.

As in accordance with our constitution, TDAS will ensure that male board members will not hold key offices and that we will maintain a majority of female trustees at all times.

Thank you for considering to be a Trustee for TDAS.

Annual Board Work Plan

The Annual Cycle

The Board should follow an annual planning cycle of:

- Reviewing strategy and then approving the draft business, budget and risk management plans before the beginning of the new financial year and;
- Then reviewing the previous year operational and financial performance at the next board meeting.

Detailed work is usually carried out by committees, ahead of board meetings, with chairs coordinating with each other to avoid duplication or issues being missed.

These committee meetings should be held sufficiently ahead of board meetings to enable any papers/proposals for the Board to be prepared for the Board pack-up.

Using the Work Plan

Insert the names of your committees into the workplan framework below.

Much of the Board's work will be driven by its year end date and, so these activities should be included in the framework first.

Then include the various other activities to be carried out. A non-exhaustive list of possible activities is included below in the Board and committee activities section.

Usually, there is too much to realistically carry out everything.

Identify which activities are critical and must be included, then those which should be priorities.

Consider if any might be:

- Reduced in scope or scale, or;
- Delegated to the CEO and his/her team, or;
- Carried out by a consultant.

Essential Trustee Guide

Trustees have independent control over, and legal responsibility for, a charity's management and administration. They play a very important role, almost always unpaid, in a sector that contributes significantly to the character and wellbeing of the country.

Trusteeship can be rewarding for many reasons - from a sense of making a difference to the charitable cause, to new experiences and relationships. It's also likely to be demanding of your time, skills, knowledge and abilities. Being aware of the duties and responsibilities covered in this guidance will help you carry out your role in a way that not only serves your charity well but also gives you confidence that you will be complying with key requirements of the law.

Role Summary

The Board of Trustees are responsible for the overall governance and strategic direction of the charity, developing the organisations aims, objectives and goals in accordance with the governing document, legal and regulatory guidelines.

Please see below link for the full document. You will also receive a copy as part pf your induction.
